Agent Engine: how every page looks

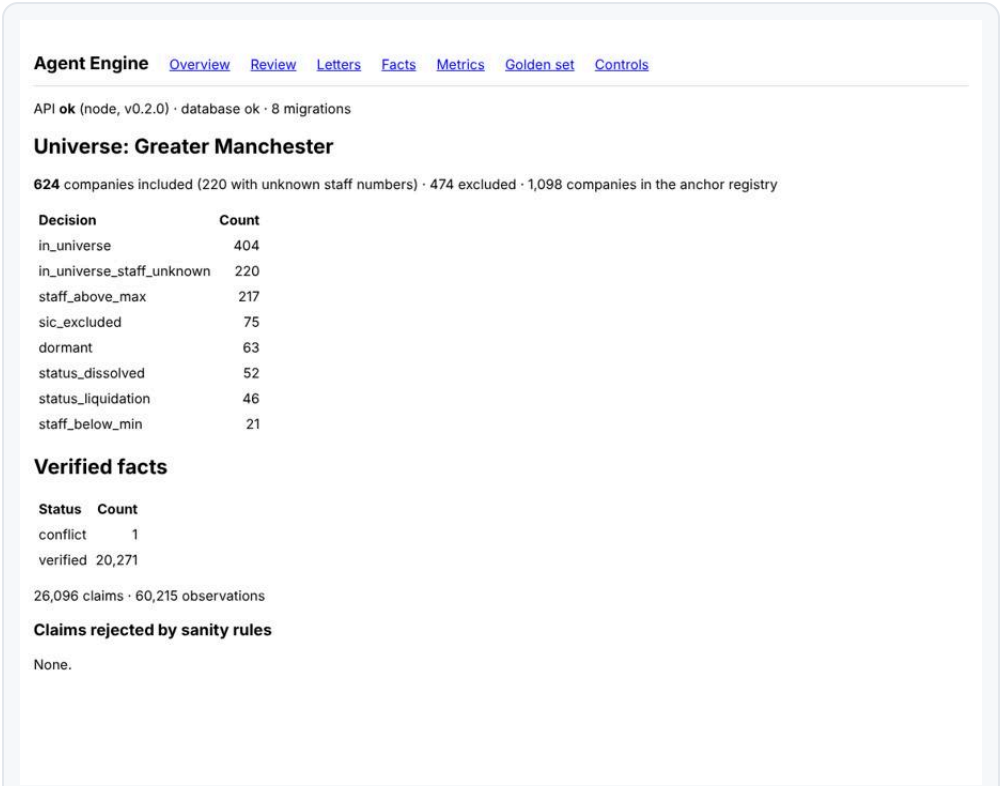

60 screenshots captured 2026-11-09 21:32 UTC with headless Chromium at 1440px (desktop) and 390px (phone). Data: a synthetic database seeded by running the Phase 2–5 gates (each builds the Phase 1 synthetic world first), with the global kill switch ON and no network calls. Light theme only: the dashboard and demo pages have no dark styles (the two dark-mode shots show this). Seeding note: in one shared database the Phase 2 gate's "12 drafts generated" check reads as failed (it counts other gates' tasks, and the pilot cap of 50 leads a week held two of its leads back); every other gate criterion passed. Issues noticed while capturing: `ui-issues.md`.

Dashboard (seeded synthetic data, kill switch ON)

Dear Directors,

I noticed that SYNTHETIC TRADING 68 employs around 80 people. I noticed that SYNTHETIC TRADING 68 has been trading since 2015. I noticed that SYNTHETIC TRADING 68 has recently appointed a new director. I help Manchester businesses with fast, modern websites that bring in enquiries, so I've made a free demo homepage for SYNTHETIC TRADING 68 to show what's possible. If you like it, I'd be glad to talk it through.

Best wishes,

Archie, EJTECH Ltd
